

## PETS AT WORK - POLICY

With the exception of those dogs used by people with disabilities, the Public Services Commission considers that it would be highly inappropriate for civil servant to bring their pets to work for the following reasons: -

- a) health and safety at work (e.g. interference with cables etc.);
- b) operating efficiency (e.g. hair/fur affecting computer equipment etc.);
- c) financial considerations (e.g. extra cleaning and repairs to decoration, etc.)
