

HAV Risk Assessment Essential Points Checklist

Use this checklist to identify essential points to consider within your HAV risk assessment.

For support, please contact the Health, Safety and Welfare Team by e-mailing: safetyadvice@gov.im

Ensure you have covered each of these points in your HAV risk assessment.	Yes	No
The work activity being assessed.		
Who is being exposed.		
The equipment (include make, model and details of accessories and attachments).		
The level and duration of exposure.		
A review of the vibration information provided by manufacturers.		
The effects of vibration for those whose health is at particular risk from such exposure.		
The availability of any other equipment that may reduce exposure.		
An assessment of the working conditions such as low temperatures.		
Information obtained from health surveillance.		
A review of the effectiveness of existing control measures.		
A conclusion as to the risks.		
A date for review.
